

Model 790 Premium Insulated Door

FEATURES

A Clean Finish

The flush steel interior gives the door a cleaner appearance while adding strength, sound resistance, and energy values.

Protection from the Elements

Tongue and groove joint construction seals and aligns the sections providing a snug, weather-tight fit.

Keep the Outdoors Outside

The bulb-type vinyl bottom weather seal fits tight against the floor sealing out moisture, light, and energy leaks.

Smooth Operation

Galvanized steel hinges and self-lubricating rollers are designed for long life and smooth, quiet operation.

Beat the Hot and Cold

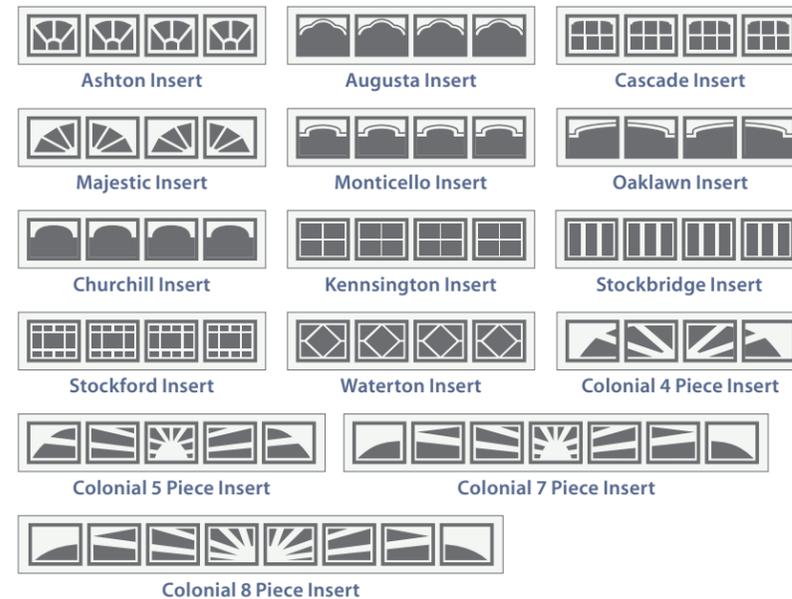

The CFC-Free polystyrene insulation foam is bonded between steel panels providing a 9.0 R-Value. The optional polyurethane insulation (flush & plank panel designs only) provides a 14.0 R-Value. The standard thermal break minimizes transfer of exterior temperatures and drafts, and reduces everyday wear and tear between sections.

FINISHES (Actual color may vary)

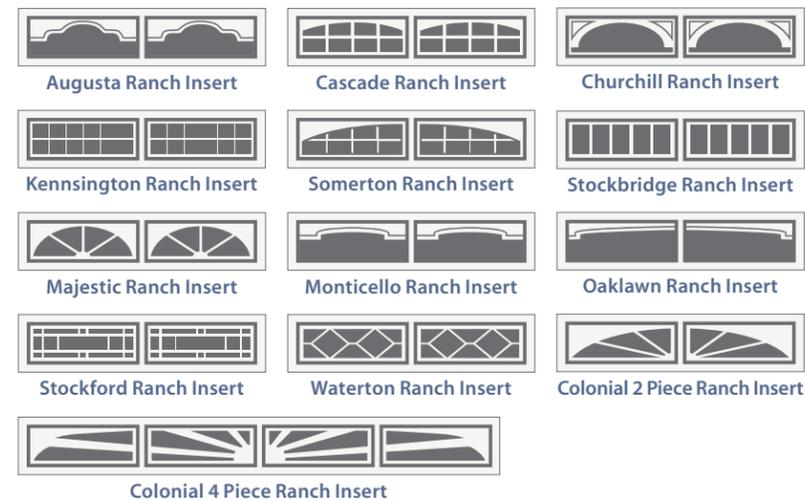

WINDOW INSERTS*

Standard Panel Design Inserts

Ranch Panel Design Inserts

*Some inserts and colors may not be available, or are subject to minimum purchase requirements. Please contact the Windsor Door factory to verify availability.

HARDWARE

Optional decorative handles and strap hinges give the look of forged iron.

Almond, Raised Panel, with Kensington Inserts

Model 790 Premium Insulated Door

The Windsor Model 790 is a 2" thick door with steel front, steel back and a solid core of polystyrene or polyurethane insulation. This premium door provides excellent strength, insulation, and security, as well as a pleasing appearance from the front and back. Customize your Model 790 with your choice of eight panel designs, eleven color choices, and a variety of window and decorative insert options.

SteelWood Premium Finish

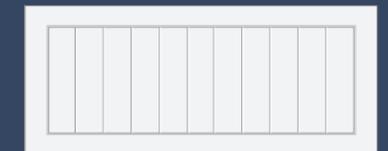

The SteelWood Collection combines the low-cost and durability of steel with a custom wood appearance. It has the proven quality of our Model 790 door in a low maintenance painted wood grain. Offered in three "wood grain" color options, CherryWood, OakWood, and WalnutWood.
